Hey there EPA - Im a kiddo who is 12. I have fished in the Willamette with my uncle Wally. We were talking about option I vs. Option G. I is for inverted, inglorious, and insolent. G is for great, green and good. Now I could tell you why Alt. G does more than Alt I, but I think you know that.

You need to reduce the risk from the Willamette toxics... yes, the toxics in the river right now.

Please improve your plan and chose Alternative G. Alternative I seems like it was made for those who want to do less... and the thing is... I know you want to do more.

Thanks,

(b) (6)
